Stair mould with GIAN T

GIAN T02 concrete stair nose

GIAN T02 sandblast (R 13)

## GIAN Tape 50 mm

non-slip stair nosing manual

clean mould

customise,  
remove backlayer

apply firmly

spray release agent

pour concrete

When applying the tape, ambient temperature must be between 10-32° Celsius (50-90° Fahrenheit). A sealant around the applied tape increases the life span of the tape.
